

COMMUNITY
FOUNDATION
OF NEW JERSEY

Design charitable projects beyond 501(c)3s.

With a donor advised fund at the Community Foundation of New Jersey, your clients can utilize charitable dollars to support their charitable ideas like creating a new STEM curriculum for schools, providing police overtime to conduct a pedestrian safety program, constructing a new playground in town, or even supporting a development project halfway around the world. Some institutions limit charitable giving to 501(c)3 nonprofit organizations. We know the opportunity to create impact extends well beyond nonprofits and work with fundholders to achieve it.

It's one thing to write a check. It's another to solve a problem.

The Community Foundation of New Jersey helps families get more out of their charitable giving – for their family, for the community, for the world. We can help implement charitable projects designed with your clients' specific goals in mind.
