

COMMUNITY  
FOUNDATION  
OF NEW JERSEY

## Our donor advised funds are different.

The Community Foundation of New Jersey offers distinctive donor advised funds that offer many advantages: flexibility on the investments, a higher deduction on AGI as compared to private foundations, the ability to give beyond 501(c)3's, and the opportunity to donate non-publicly traded assets. When you call us, you talk to a human being: your dedicated fund representative who can answer questions immediately and explore giving opportunities in real time. The flexibility of our investments and precision of giving is only possible with specialists who understand the unique contours of communities and can manage the scope of giving vehicles that we do. We treasure our ability to partner with professional advisors in service of their clients.

# The best way to help your clients give back to their communities is to join ours.

When a client comes to a life choice, they often think big—about their future, about their family, about their community, about their legacy. If philanthropy is part of their thinking, we can be a resource to you. The Community Foundation of New Jersey is an ideal nonprofit partner with the know-how, experience, and imagination to bring these client conversations to life. For more than forty years, we have supported professional advisors as they work with clients to incorporate philanthropy in their major life decisions—in a way that maximizes financial return for both the clients and the causes they care about.
