

COMMUNITY
FOUNDATION
OF NEW JERSEY

Engage the next generation in giving.

Philanthropy is an effective way to engage your clients' extended family and future generations. With a donor advised or legacy fund at the Community Foundation of New Jersey, your clients can invite their children or grandchildren to be part of their family's philanthropic legacy.

Reaffirming a family's values.

As a family grows, new members may provide guidance on a fund and gain a greater appreciation for their family's core values. The giving from a fund may be entrusted to successor advisors of your client's choice, with the client's philanthropic intent incorporated. If needed, the Community Foundation's relationship with your client's successors can range from informal, on-on-one phone discussions to full-day, all-family events. The Community Foundation can help open your client's family to the fulfillment and rewards that come with smart giving.
