Over our 46-year history, the Community Foundation of New Jersey (CFNJ) has collaborated with individuals, families, organizations, and businesses to design charitable funds; provide grants to nonprofits; and implement the philanthropic solutions they want to see in their communities.

Our \$1 billion in assets and 1,200 funds help our partners think boldly and creatively about ways to give — making their philanthropic goals a reality in New Jersey and beyond.

We know our fundholders. We understand communities. And we're proud of the many ways we work with our partners to give to the charities they care about.

For decades, we have collaborated with donors to open donor advised funds, create a charitable legacy, and connect with charities to make a greater collective impact. Our capabilities include:

Advising you on your current giving

CFNJ provides flexible, tailored options to direct and manage your charitable giving.

Implementing your charitable legacy

Fundholders and community members entrust us to steward and implement their charitable interests in perpetuity.

Why Work With Us?

You'll receive a full range of support.

Giving should be easy and convenient, so we provide a full range of support to our fundholders — delivering about 8,000 grants on their behalf annually. CFNJ also eliminates administrative requirements, screens organizations for grant eligibility, and offers the flexibility to pursue a range of charitable purposes. Every fundholder has online fund access to make grant contributions, review balances, and more.

You can make a measurable impact.

If you're seeking a partner, we can help you explore, plan, and create a customized charitable strategy and offer our expertise on how to reach your objectives. Our specialists research and evaluate organizations that serve your areas of interest, and we can arrange site visits before, during, and after grants are made. CFNJ can also help you measure the impact of your grantmaking.

You'll learn about community issues.

Fundholders and community members are offered the opportunity to learn about important issues and how to give in ways that work best for them. CFNJ also collaborates with professional advisors to help fundholders incorporate charitable giving into their financial and estate planning in simple and tax-beneficial ways.

You can choose to address critical challenges collectively.

We believe that connecting donors' philanthropic interests to critical imperatives, and pooling their dollars with our own, allows us to have a greater collective impact on issues that matter to all of us.

You can engage younger generations in your charitable giving.

We welcome the opportunity to facilitate the involvement of your family by providing an open platform for discussing values, interests, and the importance of philanthropy. Family relationships and your legacy can be strengthened, all while helping those in need and teaching about money and finances in an engaging and relevant way.
