

Over our 46-year history, the Community Foundation of New Jersey (CFNJ) has collaborated with individuals, families, organizations, and businesses to design charitable funds; provide grants to nonprofits; and implement the philanthropic solutions they want to see in their communities.

Our \$1.17 billion in assets and 1,200 funds help our partners think boldly and creatively about ways to give — making their philanthropic goals a reality in New Jersey and beyond.

# WHY WORK WITH US?

## You'll receive a full range of support.

Giving should be easy and convenient, so we provide a full range of support to individuals who open a fund — delivering about 8,000 grants on their behalf annually. CFNJ also eliminates administrative requirements, screens organizations for grant eligibility, and offers the flexibility to pursue various charitable purposes. Every individual fundholder has online fund access to make grant contributions, review balances, and more.

## You can make a measurable impact.

If you're seeking a partner, we can help you explore, plan, and create a customized charitable strategy and offer our expertise on how to reach your objectives. Our specialists research and evaluate organizations that serve your areas of interest, and we can arrange site visits before, during, and after grants are made. CFNJ can also help you measure the impact of your grantmaking.

## You'll learn about community issues.

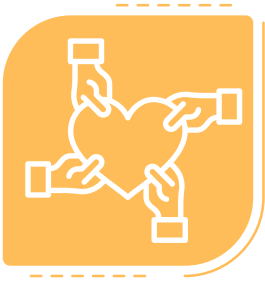

Fundholders and community members are offered the opportunity to learn about important issues and how to give in ways that work best for them. CFNJ also collaborates with professional advisors to help fundholders incorporate charitable giving into their financial and estate planning in simple and tax-beneficial ways.

# WHY WORK WITH US?

## You can choose to address critical challenges collectively.

We believe that connecting your philanthropic interests to critical imperatives, and pooling your dollars with our own, allows us to have a greater collective impact on issues that matter to all of us.

## You can engage younger generations in charitable giving.

We welcome the opportunity to facilitate the involvement of your family by providing an open platform for discussing values, interests, and the importance of philanthropy. Family relationships and your legacy can be strengthened, all while helping those in need and teaching about money and finances in an engaging and relevant way.
